

Our vending machines

You can find ADM vending machines at many locations in the Netherlands and abroad. The three models we supply – the Classic, Excellent and Excellent+ – are made of high-grade stainless steel. The Excellent model features a display at the rear that allows you to see all essential information. Think of such data as the daily turnover, total sales and temperature. You can also store the data digitally as management information. The Excellent+ model has a Time and Temperature Control System. Our vending machines can be installed with every available payment system.

- ▶ **Removable stainless steel compartments**
- ▶ **8 mm safety glass**
- ▶ **Fitted with various payment systems**
- ▶ **Fully closed cabinet**
- ▶ **All our G1/8 models are also available in a plug & play mobile unit**

ADM vending machines - Get the goodness out

With ADM vending machines, you have optimal control over the quality of your products. After 50 years, we still continue to develop and innovate our vending machines. It helps us keep up with the times and enables us to continually respond to the latest developments and legislations. This means you can always meet the strictest hygiene requirements. Our vending machines also help you save on energy and you'll have a machine that is extremely practical, both in use and maintenance.
